This man's life is as full today as before he lost his eyesight. It's a very important book for those who have lost partial eyesight. For those who care for someone with total loss of sight it will be an inspiration for both. Mister Schrieber's book makes it clear that a total loss of one's

eyesight does not need to call an end to a full, productive and meaningful life. This is not a book solely for or about those who have lost their sight. Can you imagine such a tragedy in your your life? Well, as Art Schreiber points out, losing one's sight need not be the end of a productive, joyous and inspiring life. This book is remarkable reading...and inspiring...to those of us who can pick it up and read it. 2 of 2 people found the following review helpful. **NOT HOPELESSLY BLIND,, HOW TO SUCCEED BY TRYING VERY HARD**By MarilynI found this to be an iteesting and inspiring book. t is a tale about a man with svere disabilities who created himself into a success in life and business. It can show a way to those of us with any disabilities, not just blindness. While it is a short read and a quick read,, surprisingly sometimes very amusing,, it is worth a re-read from time to time to be reminded of the battle this man won. 0 of 0 people found the following review helpful. **A True Gentleman**By Warren BI had the honor of meeting Mr. Schreiber in an airport and getting to spend time talking with him about his experiences with the Beatles and his work as a presidential correspondent. This book tells of his journey through life and his experiences as he lost his sight. I thoroughly enjoyed reading the book and recommend it highly.

A high level radio news broadcast executive, Art Schreiber suddenly lost his eyesight. At the top of his career as a radio station general manager, Art awoke one morning at a resort near Santa Fe, New Mexico, unable to see. His world was in complete darkness. After facing total despair, Art plotted his return to the top while learning to live life in a new way in a new world. Art's refusal to fold his tent when his eyesight failed and his struggle to live life to the fullest will inspire any person who reads his story. Art's greatest reward in life is encouraging and motivating others who face similar challenges.
