Juicy, full of life, amazing, how-to and inspirational mixed media art book!By nicoleI have been looking forward to this book for a long time and it has finally arrived! This art book is more than a how-to; it also provides many inspiring stories and artwork from the author and other contributing artists (including a lot of my favorites like Jesse Reno, Juliette Crane, Lisa Sonora Beam, Judy Wise, Laurie Mika, Orly Avineri, just to name a few--seriously ALL of the artists in this book are very talented and amazing!) The book is the perfect balance of how-to (step-by-step with detailed photos and instructions--I am a visual learner, so this was very

important to me) with a lot of fun prompts and assignments sprinkled throughout by the author and the other artists. The stories are all very personal, interesting, inspirational, and will provide you with a lot of insight into the art making process from a technical as well as an almost spiritual perspective. The author has really poured her heart and soul into this book. I feel like I will use this book throughout my own artful journey as it is a book you can return to again and again for ideas and inspiration. The book isn't just about making artwork, it is also about discovering the voice inside of you, the one that will tell your own personal and unique story through the art that you will make. And you will be inspired to do something new and daring even if all you do is just open the book to one random page and absorb the visuals and take in the honest and thoughtful writing on the page.

By Terri Churchill If you're looking for an art book that will provide some techniques, you won't be disappointed, but that's not primarily what Tracy's book is trying to accomplish. Artists are not primarily technicians, they are story-tellers who use color and line to speak. Tracy has gathered a tribe of artists who together are telling stories that you'll want to attend to slowly so that you can notice your own story emerging. Don't be impatient with what you find here. The stories can't be separated from the art without doing violence to your tender heart.

I received my copy of Paint Mojo when they first began mailing them, but I didn't really begin to dig in until I traveled North to the Boundary Waters area of Minnesota. There, I began savoring every page. And as I turned the pages, and swallowed the color and line and pain and joy, images began to wake up in me. I have never been more prolific as I have been since I began walking with this little companion at the beginning of this week.

Thank you Tracy. From the bottom of my heart, thank you.
