Update \* I originally was going to keep this product ...By RzdickinsonUpdate \* I originally was going to keep this product regardless of shipping condition. But I just noticed the inner bag is cut open, as well as the box being cut open. If I'd wanted a warehouse deal I would have paid less for this not the same. Silly rip offs aren't ok. Since I can't gift this without looking a fool I must return.0 of 0 people found the following review helpful. Loose pagesBy Jen BelmontIt is a bunch of loose papers set in a box that you have to fold into a stand. The box ripped when we tried to make it into a stand so we had to tape it together. I don't understand why they couldn't make it so you tear each page off each day. If you can handle the loose paper issue the actual pages to make airplanes have been pretty good.
