It kept him busy for hours, and he has used the instructions with other kinds of paper since consuming what was included. As a developmentally delayed 6-year-old, I was afraid it would be beyond him but he was able to follow the directions, make sense of it easily, and be very effective in using this kit.1 of 1 people found the following review helpful. Its ok if you are older, not so much for small kids.By M.A.These are small pieces of paper which are hard to fold if you are a kid. My kids weren't able to complete the instructions for most planes that had complicated folds because the paper is too small. This was partly my fault as I didn't noticed the dimensions of the paper before I ordered it.0 of 0 people found the following review helpful. Five StarsBy M C. Rose-WalkerGreat paper for many things. 4" x6"

For on-the-go, on-the-fly fun, nothing beats this mega-pack, complete with an all-color book and a whopping 278 sheets of pullout paper in cool designs. Illustrated step-by-step instructions guide you to fold four fabulous, realistic gliders: the Egret, Pipit, Swallow, and Condor. You'll enjoy making themand watching them soar!
