Mythical Creature Origami, or so They SayBy peekabooAlthough this is a great package for those who know nothing about Origami, for those who enjoy Origami this is not what you should buy. All of the pieces demand some form of cutting, and a few of them need glue. I found this quite disappointing, because I believe that part of the beauty of Origami lies in the manipulation of a piece of paper via folding to create something of beauty; cutting and glueing does not fit into this criteria. Nonetheless, this is still a great party gift as the end result of many of the pieces is very good.0 of 0 people found the following review helpful. excellentBy Chickenlove this kit!! tons of great designs and stuff!! nicely put together great way of displaying every thing in it.. wish it came with a dvd for it tho1 of 1 people found the following review helpful.
