**Robert Fathauer, Duy Nguyen : Paper Creations: Psychedelic Origami (Easy Papercraft)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Paper Creations: Psychedelic Origami (Easy Papercraft):

0 of 0 people found the following review helpful. Lousy  
By Eric M. Brown  
No interesting origami here that is not available on the web for free  
0 of 1 people found the following review helpful. Poor models and poor paper variety  
By lc  
There are diagrams for only 9 models in the booklet. There are three tessellation patterns, all of which can be found in Eric Gjerde's book. I was hoping for some new tessellations from Psychedelic Origami because one of the authors writes about tessellations so am disappointed (I already have Eric's excellent book). The other six models are not attractive and some are very very basic. There are only two "sixties-themed" models. The paper is also a big disappointment. There are three patterns (10 sheets each!) of gridded paper to be cut into hexagons for making the tessellations. Nice enough but I don't think that 30 sheets of paper that can only be used for specific models is really worthwhile. Then there are four other patterns (5 sheets each); these are fine. So, you are really not getting 50 sheets of paper that are useful...once you make the three tessellations you are left with 27 sheets of the tessellation paper that are really not good for anything else. For me, this is not a good kit. Buying this kit just for the paper is even not worth it.

Psychedelic Origami is the newest installment in Sterling Innovations highly successful line of origami book and kits. It features wild new origami papers in vibrant hippie colors and psychedelic patterns. This great gift pack also includes a book that teaches paper artists how to fold unique sixties-themed projects, such as a peace sign and a guitar, as well as tessellations interlocking geometric shapes that create geogami. Plus, the kit comes complete with a finished peace

sign project, making for an attractive and exciting presentation.
