Discover how to make unique, stunning pieces of jewellery by manipulating paper. It's amazing what you can produce using four basic methods - papier mache, rolling, folding and quilling. You won't need specialist tools or equipment, and will even be able to use recycled materials, such as newspaper, gift wrap, envelopes and candy wrappers. Denise Brown's 35 beautiful projects offer something for everyone, with easy beginner ideas as well as more complicated pieces, in a whole range of styles. Make crazily coloured and funky shaped quilled earrings, or a classic shimmering pearl necklace and matching ring using rolled paper strips. The striking red velvet necklace and bracelet are made from papier-mache beads, while the fun pompom ring and necklace are created simply by folding. Each project has clear, step-by-step artworks to explain the process and the techniques section for each method will teach you all you need to know. With plenty of inspiration and guidance, you'll soon be able to experiment with each technique to create your own one-off pieces.

About the Author Denise Brown studied graphic design, beginning her career in book design and packaging and becoming the creative and publishing director of her own company. Craft and design was always one of her passions and, having worked with many renowned craftspeople in the 27 years she spent in publishing, she is now producing her own creations. Currently, she is teaching art and craft, but plans to spend more time on her own work.
