Helen Hiebert : Papermaking with Garden Plants Common Weeds before purchasing it in order to gage whether or not it would be worth my time, and all praised Papermaking with Garden Plants Common Weeds:

1 of 1 people found the following review helpful. But I'm a little bit disappointed in the selection of plants in the recipesBy M. MosherThis book has recipes for making paper from plants, and a wealth of information about that process. But I'm a little bit disappointed in the selection of plants in the recipes. It says "Garden Plants and Common Weeds". To me, common weeds are like, dandelions. While it does say that you can attempt to make paper from pretty much any plant matter, I don't have many of the plants listed in the recipes in my yard or in my neighborhood. I guess I'll have to plant some!3 of 3 people found the following review helpful. This book is so inspiringBy SuzieThis book is a joy to read and look at. It is delightful in every way. The hints and tips are wonderful and the illustrations and photographs are easy on the eyes. The information is excellent and surprising . Im loving this and highly recommend it.2 of 2 people found the following review helpful. inspirationalBy lakeremythis is a great book and full of information for the advanced paper making artist. I have used and plan on getting into the more complex projects. I've got all kinds of stuff drying and almost ready to incorporate. This book is really helping me think "outside the box" Helen Hiebert is undoubtedly one of the most creatively gifted people.

Make exquisite papers right in your own kitchen. With a few pieces of basic equipment and a small harvest of

backyard weeds, you can easily create stunningly original handcrafted papers. Helen Heiberts illustrated step-by-step instructions show you how easy it is to blend and shape a variety of organic fibers into professional stationery, specialty books, and personalized gifts. You'll soon be creatively integrating plant stalks, bark, flower petals, pine needles, and more to add unique colors and textures to your paper creations.

About the Author? Papermaker and artist Helen Hiebert is the author of *The Papermakers Companion*, *Paper Illuminated*, and *Papermaking with Garden Plants and Common Weeds*. She served as Program Director at Dieu Donne Papermill in New York City for five years, where she taught papermaking workshops and her paper products were featured in the papermaking exhibition. Hiebert has also taught papermaking at the Women's Studio Workshop, the Horticultural Society of New York, and the New York Botanical Garden. Her paper products have appeared in *House Garden* and *Country Living* magazines. Hiebert currently lives in Colorado.
