**Lee Bruce : Paperscapes New England (Make It By Hand)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Paperscapes New England (Make It By Hand):

Paperscapes New England transitions fans of adult coloring books into the world of crafting with thirty unique projects that you can color, press out, fold, and display together in a stunning paperscape of a charming New England town. Whether you're new to coloring and crafting or a seasoned expert, Paperscapes New England offers you hours of creativity and relaxation. All you need is a set of colored pencils and your imagination. Filled with thirty finely-detailed illustrations printed on die-cut, high quality stock, Paperscapes New England invites you to color in architectural wonders, cozy homes, quaint shops, and lovely churches. Press them out, and fold them into three-dimensional works of art. When all thirty projects are complete and arranged together, they create a beautiful display that you can show off at home or the office, or give as a gift to a loved one.

About the Author Lee Bruce is an experienced illustrator and graphic designer working across a wide range of

disciplines within marketing, IP, and brand development. He is a highly skilled 3D modeler and animator. His recent projects include the development of a full range of characters and initial branding for a new childrens IP project, and commissions on documentaries and short films that have been featured at BFI London Film Festival, Berlinale International Film Festival, and Dok Leipzig International Film Festival.
