Scott Clem : Part 15 Broadcasting: Radio's New "Golden Age" before purchasing it in order to gauge whether or not it would be worth my time, and all praised Part 15 Broadcasting: Radio's New "Golden Age":

1 of 1 people found the following review helpful. Local Radio! You Can Do It! By Randall Clemons
Awesome information to kick start your dreams! Enjoy! Just study, build carefully, experiment and get on the air! You'll be proud of your accomplishments.
1 of 1 people found the following review helpful. A good primer By ohnojo
A concise book with all of the basics for someone new to the hobby of part 15 broadcasting. Along with providing the basics, the author lists resources for expanding one's knowledge base on specific and more technical aspects of the hobby. Well done.

This book explores the little-known but exciting concept of legal, unlicensed low-powered radio broadcasting in the United States. In this book, the reader will gain knowledge of the rules and regulations regarding license-free low-

powered broadcasting (a rule section known as "part 15") and ideas and suggestions for launching a low-powered radio station.
