She was usually the only one permitted to wear white gloves, examine the museums clothing and take careful measurements and draw full scale patterns. I have been making museum replicas for the SCA since that first Birthday party in 1966. Who would have know that they would still be so popular today. Thank you for carrying most of her work.0 of 0 people found the following review helpful. Love itBy Paul J. BellDefinitely a great book0 of 0 people found the following review helpful.
