Gabriela S Calderon : Planting For Kids before purchasing it in order to gage whether or not it would be worth my time, and all praised Planting For Kids:

0 of 0 people found the following review helpful. Total Waste of MoneyBy unisThis book is a total waste of money. It seems it was written by 2nd grade student, most pictures not real content. I do not recommend buying this book for \$2, \$13 is way to much. I should have returned it.

This is a book to show young kids how to plant different size seeds. Then to give them ideas of house hold things they can used to plant those seeds in. Then basic information for what to do with plant when they have sprouted.
