Read the Library's Copy FirstBy Neilah DesireeI read this cover to cover from the copy I checked out from our local library and since I don't retain details anymore, so I wanted a book all my own. It is great for giving a wide variety of easy to do projects and I plan to try most of them, though I am waiting so I can "bake" outside, because I hate that smell in my house. I can't wait.0 of 0 people found the following review helpful. Five StarsBy LINDA HANKSgreat book.love it11 of 11 people found the following review helpful.
