Although I know how to knit, I am new to felting. The "knitting basics" section is quite good and easy to understand. The abbreviations list is also very helpful. However, some of the pattern instructions could be a little clearer. For example: The flap instructions for the Spring Fling Bag found on page 19 begin with "with RS facing . . ." I know RS means right side but should you pick the stitches up with the front of the bag facing you, or the back? This affects the "ridge" on the top of the flap. I still don't know the answer to this and have made two of these bags. Would also appreciate listing some substitute yarns --- especially the fantasy/decorative yarns. following review helpful. GREAT book for new felters!!By HipFlyGirlI bought this book after borrowing this from a friend. My first project was the vintage hobo bag on page 16. Not only is it easy to knit, the bag is beautiful!!! We started circulating this pattern amongst our friends and now we are truly addicted. What I love most about this book aside from the patterns is that the author gives clear instructions on the actual felting. She also writes clear instructions on making flaps, buttonholes, i-cords and other details that assist the novice knitters.I highly recommend this book to others.24 of 25 people found the following review helpful. THE book for felted pursesBy Yarn WhispererI work at a great yarn shop, and "Pursenalties" flies off the shelves every time we get a shipment in. It's the number-one felting book I recommend to customers who are interested in felting their knits (felt a garment too tight, you can't wear it -- felt a purse too tight, no worries, you've got a slightly smaller purse). The purse shapes vary pretty widely, which is the best thing about this book. I can't stand novelty yarns, but who cares how many Weichmann used? I don't have to use them -- they usually don't change the gauge anyway.Most of the patterns use Cascade 220, which makes most of the projects totally affordable (especially if you, like me, shun the eyelash and the glittery gunk.) People who like their purses gaudy love this book because the novelties are all over the place, and people like me love it because there are a lot of nice, varied shapes -- though I'm partial to the bubble bag combining Cascade 220 and Noro Silk Garden, and have made two. I gave one to a friend as a gift and kept one for myself, and we both get loads of compliments. Love it!

First knit, then felt--and let your "pursenality" pack a fashionable punch! From small, sleek handbags to roomy totes, these quick knitted and felted designs rank high on style and simplicity. You won't be able to make just one!Go trendy or traditional with Vintage Bubble Bag, Summer in the City Tote, and pretty, petite pursesChoose from easy projects that are worked on big needles with 100% wool and a splash of dazzling novelty yarnsGet a unique look with felting; simple instructions make the technique a snap
