They take forever but that's the idea. Every picture becomes its own masterpiece.1 of 1 people found the following review helpful. SUBLIME!By JoyI've just received my first two "Angies", and I can't tell you how fabulous her books are. I was a teenager back in the 1970s, and Mandala patterns were EVERYWHERE. When I was at College, kids even made their own. I remember thinking, 'Oh, How I wish "I" could do that". Now I CAN. They really DO relax you, too. In addition to the serenity of your own special colour choices, you must remember to hold your colouring tool as lightly as possible. If you're using needle point Gel Pens, you must be even lighter. I think that is what causes most of the "bleed through".Thank you, Angie Grace, for giving a 64 year old Ex-Hippie this magical way to express her passion for colour! (I have "QUIRKY" and "CLASSY", and will probably end up getting the whole set!)....Blessed Be....10 of 10 people found the following review helpful. IntriguingBy Cozette MorsteinQuirky is the newest Angie Grace coloring book. It is intriguing with both difficult and interesting pages to color.

Pattern artist Angie Grace brings you 50 compellingly curious original coloring patterns suitable for adults and older children. In this volume you'll find winding whirls, twining twirls and delightful doodads, all presented in Angie's

unique and whimsical pattern art style. Artwork is printed on one side of the page only and has been drawn with marker artists and colored pencil fans in mind.
