From dust jacket notes: "For decades, Cajon Pass has been considered one of the 'Wonders of Western Railroading' by the fraternity of railroad enthusiasts who are thrilled by the sight and sound of trains ascending and descending mountain grades. Ever since the late Herb Sullivan began photographing trains in the Pass, an increasing number of railfans have visited the area to watch, listen, photograph, and tape-record (in later years) the continuing drama of railroading in one of its most spectacular settings. This book tells the complete story of Cajon Pass in words and photos, augmented by plenty of maps, from the very beginning right up to the present mid-1970's, as gathered and written by a railfan/railroader who was there at the right time."
