Robert R. Dowty : Rebirth of the Jupiter and 119: Building the Replica Locomotives at Golden Spike before purchasing it in order to gage whether or not it would be worth my time, and all praised Rebirth of the Jupiter and 119: Building the Replica Locomotives at Golden Spike:

1 of 1 people found the following review helpful. Great job.By Brent E. GrothBob Dowty and his son, Eric are freinds of mine, so I'm biased. Bob did a fine job and this gives a great account of the building of these great reproduction locomotives. The one thing that couldn't be covered is what a great guy the owner of the reproduction company was. Chad O'Connor was one of the finest individuals I ever had the pleasure to meet, and he loved the locomotives he built. That couldn't have been talked about enough .

Rebirth of the trains / Restoration of them.
